

**Protocol of intention between the associations of agents of the Generali Group  
of Italy, France and Germany**

The undersigned agree as follows:

On 21 May 2015, under the aegis of the BIPAR Agents' Committee, the "European Coordination Group of Generali agents" was set up, initially between the associations of agents of the Generali Group of Italy, France and Germany (Gaa Generali, Triangl and Ivhv).

The primary objective of this Coordination Group is to compare, promote, analyse and study the role of agents within the Generali Group and consequently, to promote and examine the evolution of the profession.

In order to ensure the continuity of the Coordination Group's work, the members shall designate within their national associations one or two delegates in charge of representing them at the meetings of the Group.

The Coordination Group plans to meet at least once a year. For these meetings, each delegation will be represented by at least one person.

The Coordination Group will work under the aegis of the BIPAR Agents' Committee and will invite its Chairman and a representative of the BIPAR Secretariat at its meetings.

The Coordination Group will examine, on a case by case basis, which are the most effective options (including for the interpretation) for the organization of its meetings and intends to share between its members all the costs related to these meetings.

Any other association recognized at national level as a representative of the agents of the Generali Group in a given country, may become a member of this Coordination Group.

**Vincenzo Cirasola**  
President Gaa Generali  
Italy

**Bernard Jeannot**  
President Triangl  
France

**Christian Schmidt**  
President of the IVHV  
Germany
